I'm an international college student currently studying Computer Science at Make School in San Francisco. I was born and raised in Mexico, I first started programming during my junior year in highschool on my TI-83 Plus. From that moment on I've been developing my programming skills in order to reach my full potential.

Experience

Hackathon Mentor

Provide mentorship and beginner/intermediate iOS workshops at university and company hackathons.

Cal Hacks, Lady Problems, Code Day, AT&T IoT

Make School Summer Academy

Improved my skills as an iOS developer, by creating multiple apps. technological solutions to improve communication and efficiency.

Make School, US
